

GHOFRAN FATHALLA

junior Backend Developer | Laravel & MySQL

PERSONAL DETAILS

Al-Jaraba st, Tripoli, Libya
ghofranahmed11ft@gmail.com, 091-1286748
Website: github.com/ghofranahmed

PROFILE

Software Engineering graduate with experience in Laravel, PHP, MySQL, database design, authentication, and backend development. Completed an educational roadmap management system as a graduation project, with features such as learning paths, quizzes, progress tracking, notifications, chat, and an admin dashboard.

EDUCATION

Bachelor's degree in Software Engineering
Electronic Technology College

2021 – 2026

ACADEMIC BACKGROUND

Built a strong foundation in programming, web and mobile development, databases, and system design. Practiced Dart, Flutter, HTML, CSS, Blade, PHP, Laravel, MySQL, and MongoDB through academic projects.

GRADUATION PROJECT

Developed and documented an educational application that helps students follow structured learning paths in programming and IT. The system includes user authentication, learning paths, lessons, resources, quizzes, coding challenges, progress tracking, notifications, community chat, smart tutor, and an admin dashboard.

EMPLOYMENT
